Profile

I'm 22 years young developer, having over 1 years' experience in back-end web development and cloud services development. I keep atop of new developments within the industry and can adapt quickly to new coding conventions. I'm comfortable working either independently or as part of a team. I'm a creative and enthusiastic developer and I love what I do.

Experience

Developer/Internship, Framgia – July 2012 - August 2013

Web development using Ruby on Rails, MySQL, Ajax

Front-end development with HTML5, CSS3, JavaScript
